Meals 2.0 is here

Your weekly meal planner just got a lot better.

Swipe →

Plan your week

Drag recipes onto a visual calendar. Share or print the week in one tap.

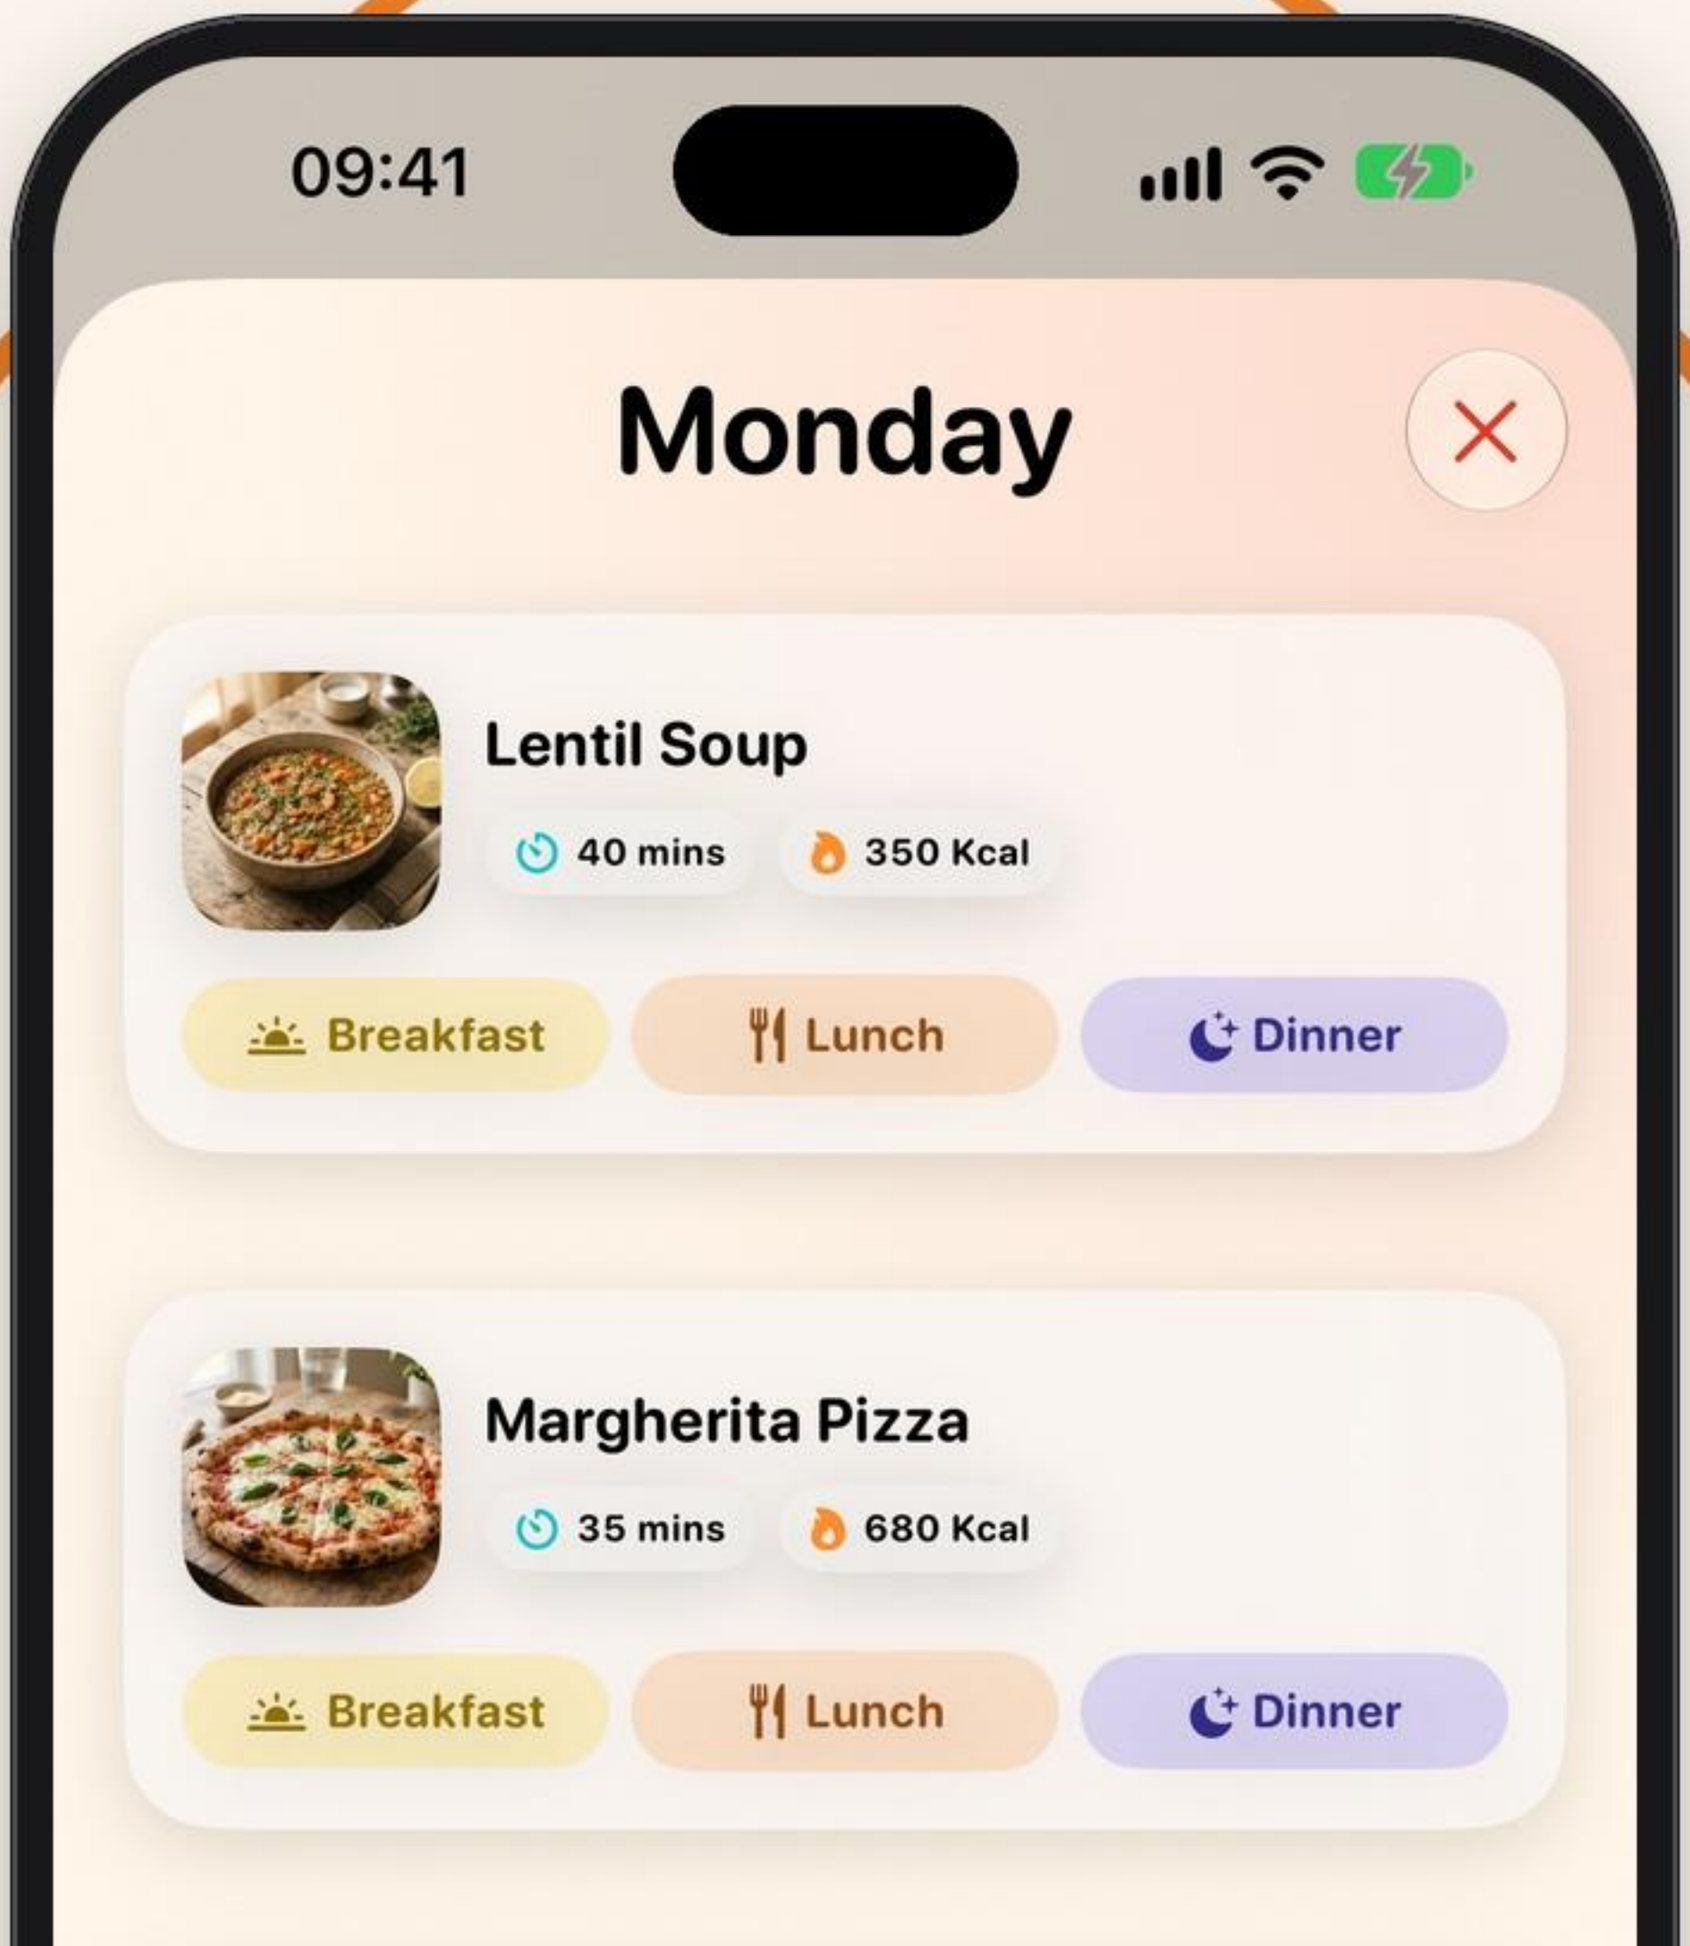

Glance at tonight

The home screen widget (Pro) shows what's for dinner, without opening the app.

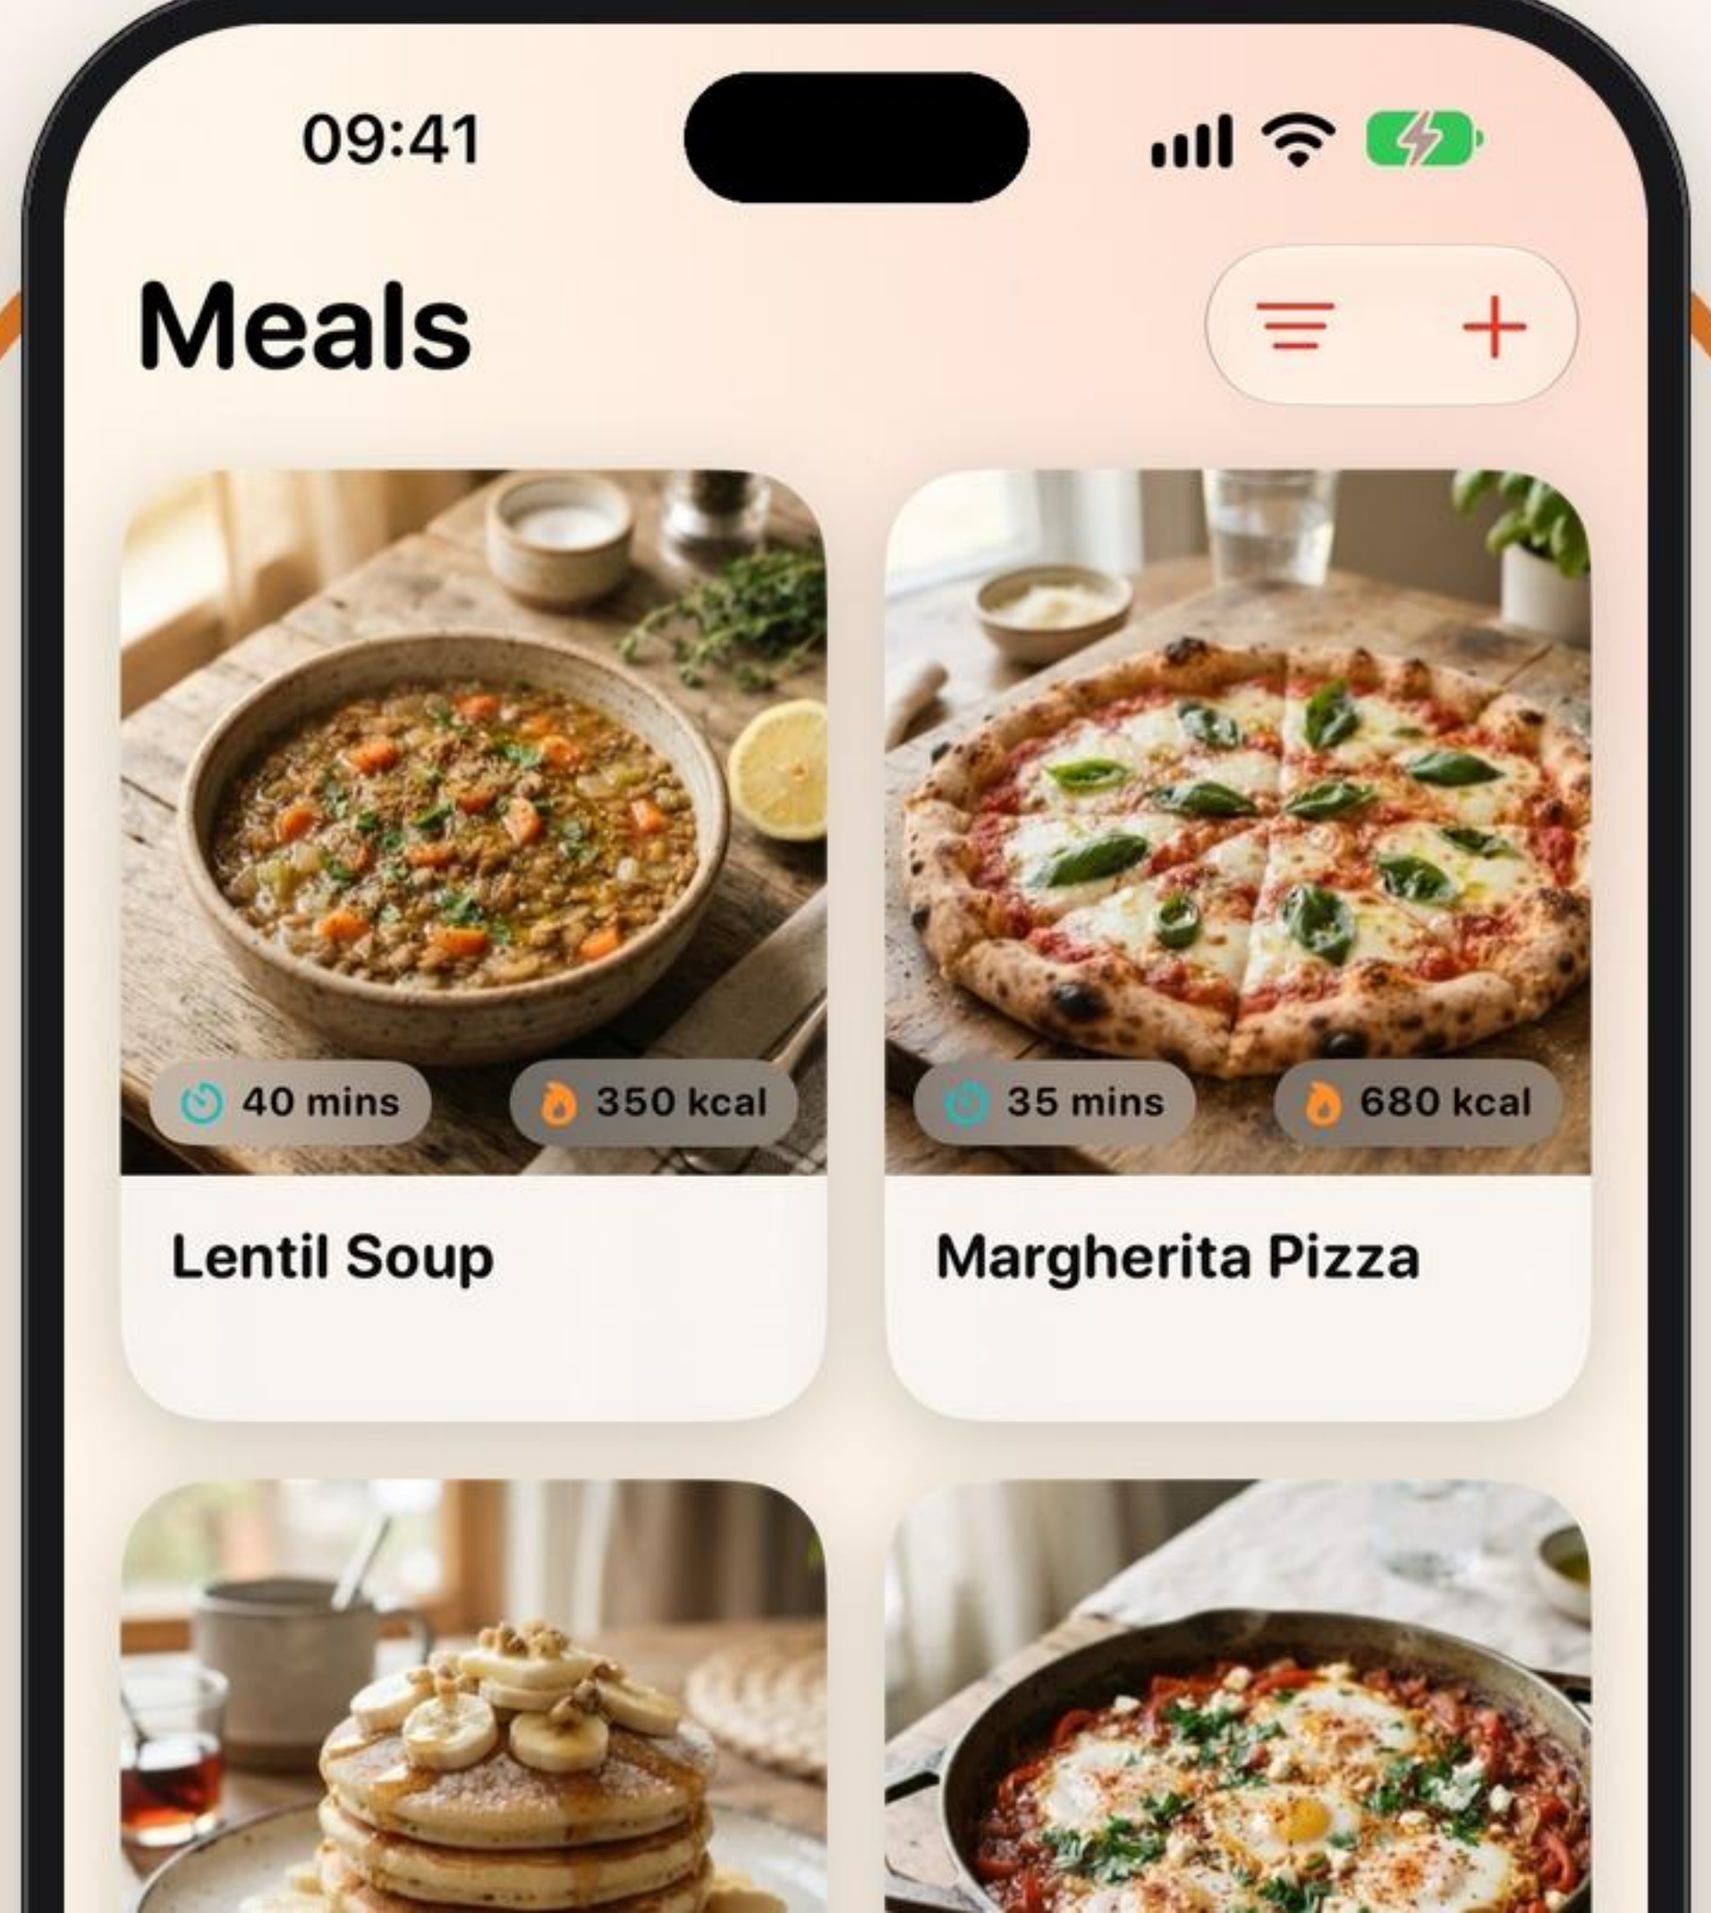

Choose in seconds

Can't decide? Search and filter recipes by tags and pick fast.

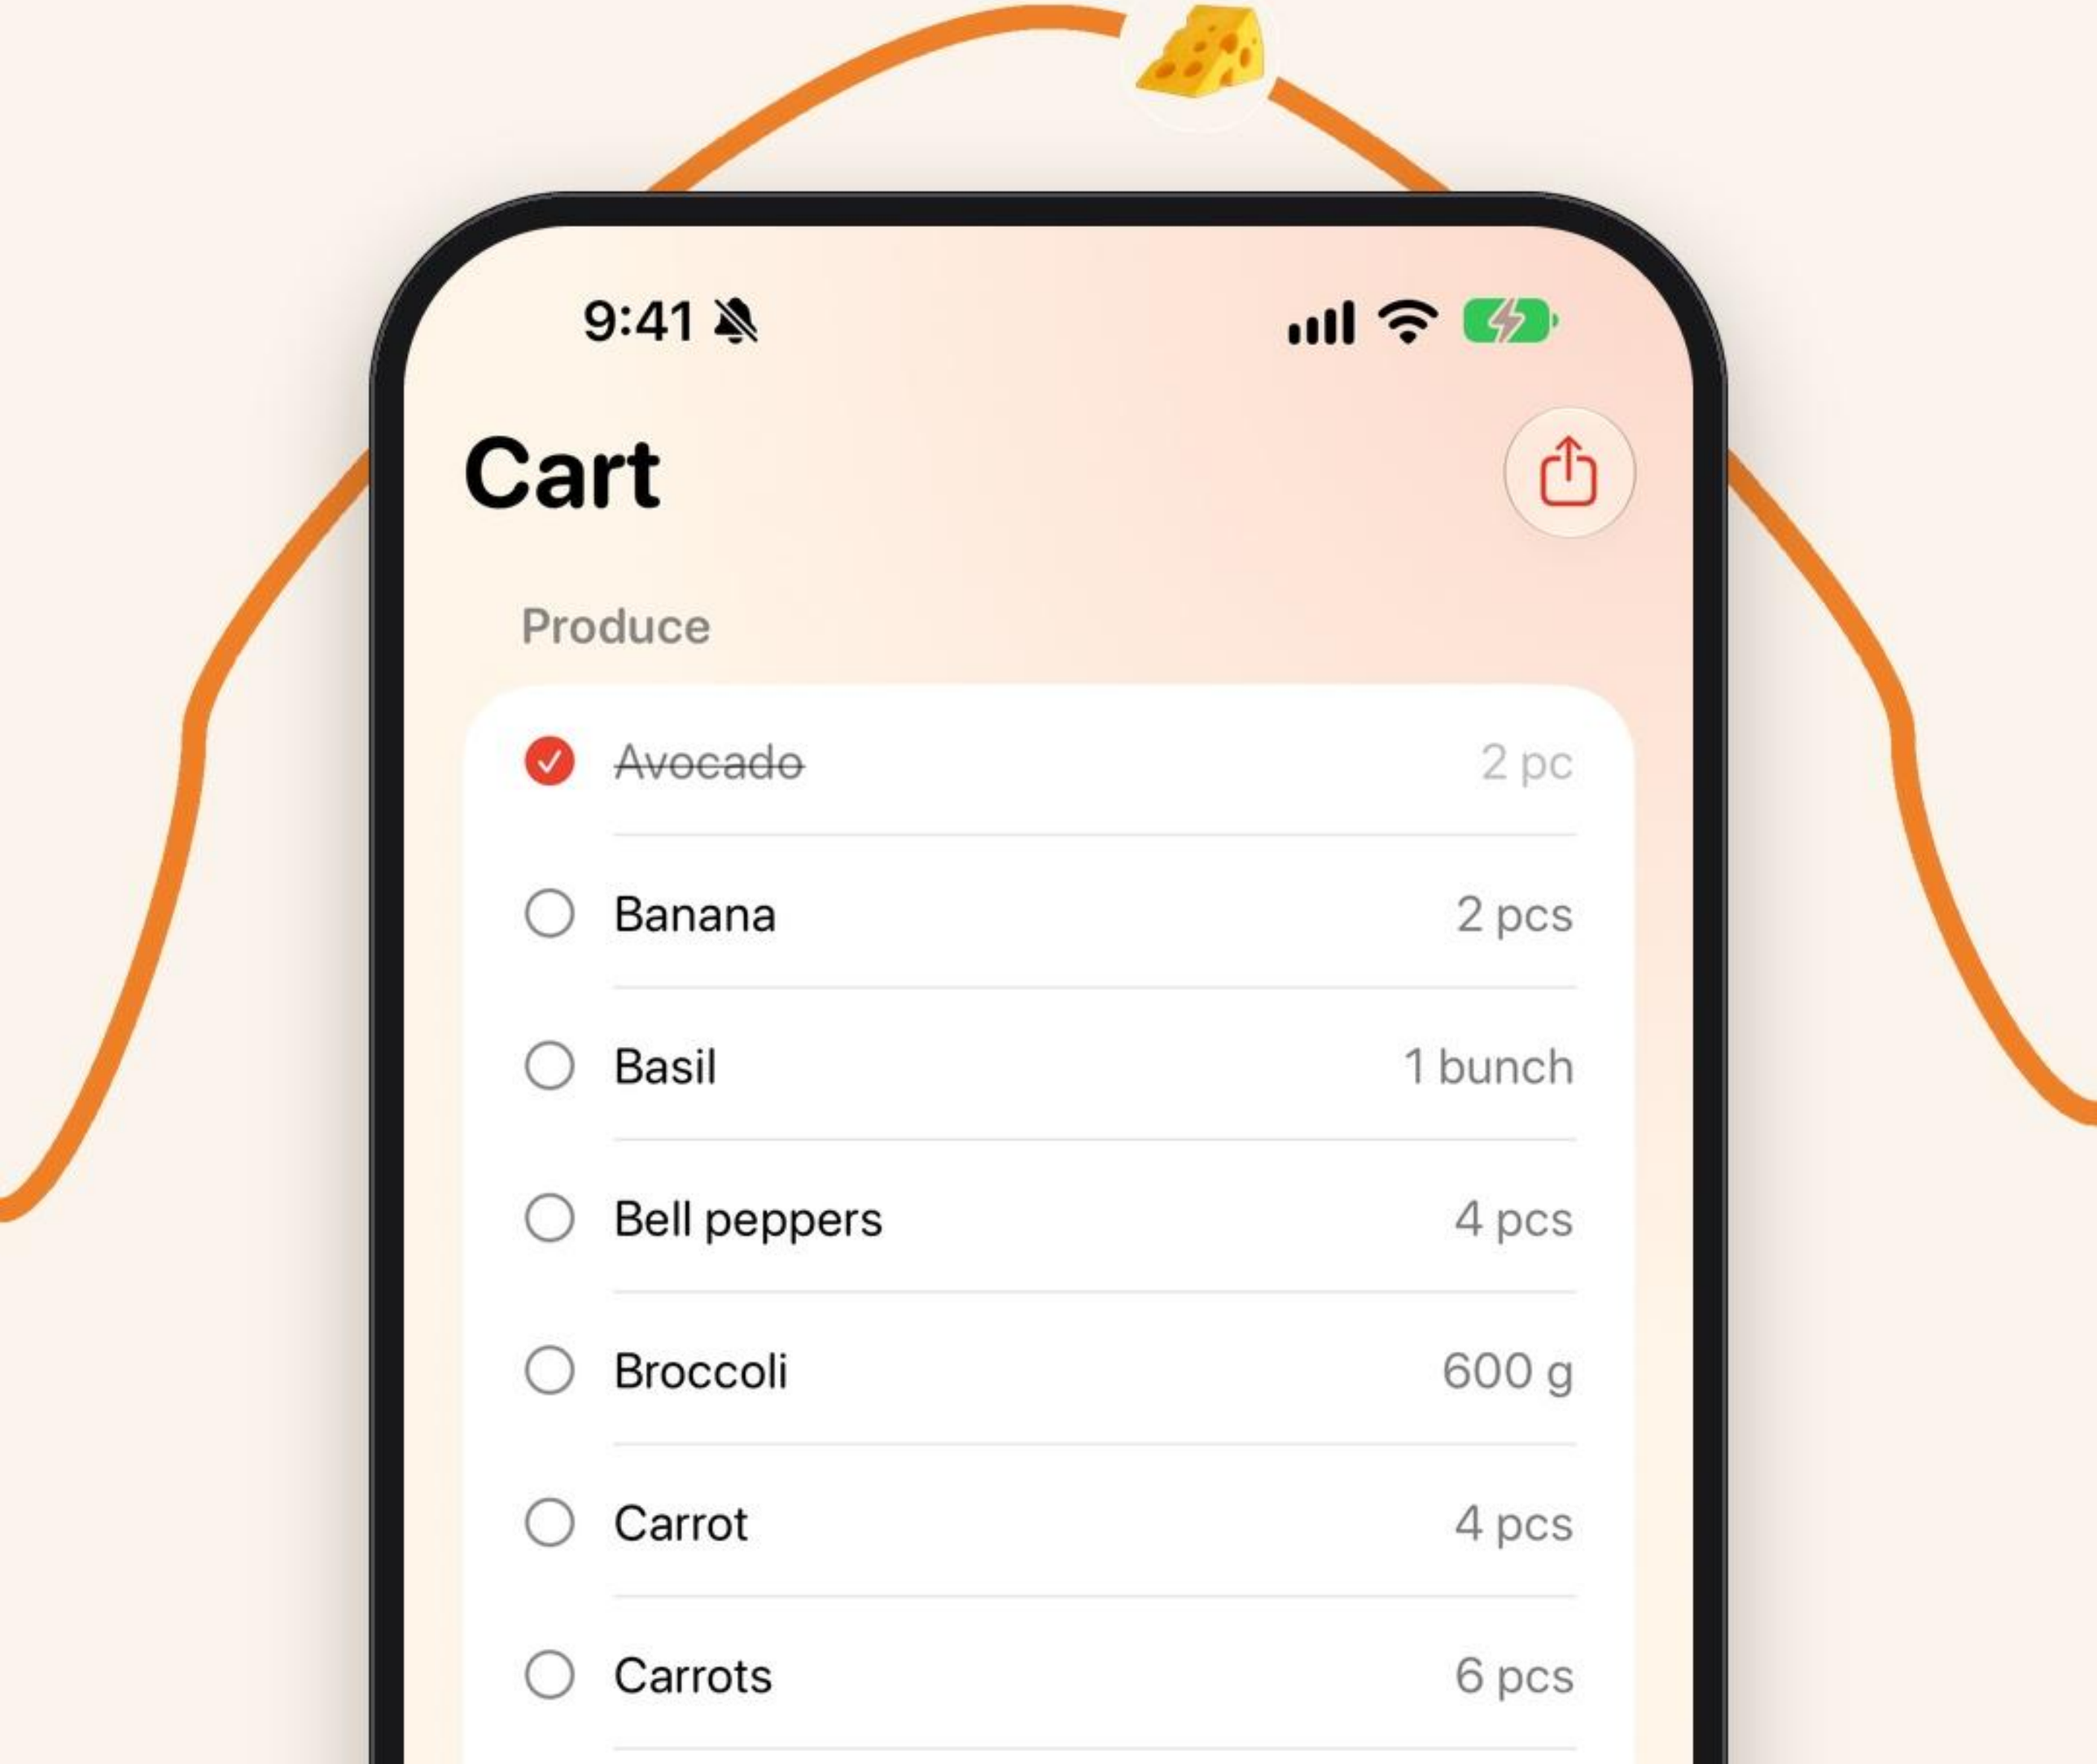

Collect your recipes

Photos, ingredients, notes. Save recipes from Safari with Meals Pro.

Know what to buy

Your shopping list builds itself from the week and syncs with iCloud (Pro).

Free. Private. No account.

Download Meals on the App Store. Link in bio.
